**Additional Business:** Scott Wisely was present and had some questions/comments: 1. Why aren't the minutes available to view on the website any longer? It was explained to him that the company the city previously worked with raised their prices so much that it wasn't feasible to continue. The clerk will try to put a link on the website to allow people to view the minutes from the previous meeting. 2. Why aren't the codes available to view online? The council checked during the meeting and they are available. 3. Asked about meter readings. It was explained to him that the meters are being read even if they have a touch read system. 4. He asked in there would be a candidate meet and greet. There isn't one scheduled at this time but the city will check to see how that works.
